ADVANCE PROGRAM

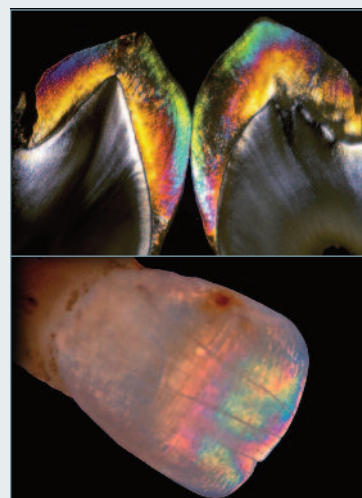

GENERAL INFORMATION

WHO SHOULD ATTEND

The program features international leaders in the fields of operative dentistry, prosthodontics, implants, periodontics, orthodontics, dental technology, and materials science, all sharing their in-depth knowledge of how to accomplish a long-lasting esthetic and functional restorative outcome in a variety of clinical situations, from simple to complex. The unique layout of the auditorium allows constant interaction with the presenters.

This symposium will benefit dentists, dental technicians, and dental students (the program is not recommended for dental auxiliaries) who are looking to deepen their clinical knowledge and understanding of various aspects of comprehensive clinical care.

If you want to see what is new, what is up-and-coming, what the masters are doing in their own practices, and have the exciting opportunity to interact with them, then this is one meeting you must attend.

REGISTRATION FEES

Your registration fee includes admission to all symposium sessions and exhibits, daily breakfast and coffee breaks, and the symposium reception on Friday evening. Take advantage of specially reduced fees by registering in advance.

- Prescribe and utilize the appropriate restorative materials in the esthetic zone
- Properly diagnose and differentiate orofacial pain
- Use adjunct therapy to improve treatment outcome

Session II

Excellence in Dental

Treatment: *A treatment sequence for predictable outcome*

The second day will emphasize the “know how” of clinical dentistry. Treatment sequences will be outlined for a variety of clinical scenarios. From focused operative dentistry to complex rehabilitation of patients with worn dentition, the treatment sequence, techniques, and materials will be reviewed in detail. The program will serve as an update of what is being done in some of the leading practices in the world and will provide a glimpse of what is up and coming in restorative dentistry. Some of the topics to be covered:
